

Compare & Contrast

Grade 3 Reading Comprehension Worksheet

Read each pair. Then answer the question.

Trains and Airplanes

Trains run on tracks on the ground. They can carry many people and heavy loads across the country.

Airplanes fly high in the sky. They carry people across the country much faster than trains.

1. How are trains and airplanes alike?
 - a. They both fly.
 - b. They both carry people across long distances.
 - c. They both run on tracks.

Frogs and Fish

Frogs begin life in water as tadpoles, then grow legs and hop on land. Adult frogs can live both in water and on land.

Fish live in water their whole lives. They breathe through gills and swim with fins and tails.

2. How are frogs and fish alike?
 - a. They both breathe through gills.
 - b. They both begin life in the water.
 - c. They both hop on land.

Libraries and Bookstores

At a library you can borrow books for free. You must bring the books back by the date stamped inside.

At a bookstore you buy books to keep. Once you pay, the book is yours to keep forever.

3. How are libraries and bookstores alike?
 - a. You pay for books at both.
 - b. You must return books at both.
 - c. They both have many books to choose from.
