

The Garden Helpers

Grade 3 Reading Comprehension Worksheet

Read the story, then answer the questions.

Earthworms are small helpers in the garden.

They tunnel through the dark soil.

Their tunnels let air and water reach the roots.

Worms also munch old leaves.

Their droppings make the soil rich.

Rich soil helps plants grow tall.

Gardeners love to see worms in the dirt.

Tiny worms do a giant job.

1. Who are the small helpers in the garden?

2. What do the tunnels let reach the roots?

3. Where do the worms tunnel?

4. Why do gardeners love to see worms?
