

Main Idea & Details

Grade 3 Reading Comprehension Worksheet

Paragraph 1

Bees are small insects that do big jobs. They fly from flower to flower and drink sweet nectar. As they fly, tiny grains of pollen stick to their legs. The bees carry the pollen to other flowers, which helps new plants grow. Back at the hive, bees turn nectar into honey. They store the honey in wax combs to eat in winter.

1. What is the main idea of this paragraph?

- a. Bees help plants grow and make honey.
- b. Bees drink sweet nectar.
- c. Honey is stored in wax combs.

2. What do bees carry on their legs from flower to flower?

Paragraph 2

Our town library is full of books. You can borrow picture books, storybooks, and books about animals. Each person may take home five books at a time. A librarian stamps the date the books must come back. There are also puzzles, computers, and a quiet corner for reading. Best of all, borrowing books is free.

3. What is the main idea of this paragraph?

- a. A librarian stamps the books.
- b. The library is a free place to borrow books and read.
- c. The library has puzzles.

4. How many books may each person take home at a time?
