

# Solar System: Mixed Review: Set 2

## Grade 3 Solar System Worksheet

Number the planets in order from the Sun (1 = closest, 8 = farthest).

- |                                  |                                  |
|----------------------------------|----------------------------------|
| <input type="checkbox"/> Neptune | <input type="checkbox"/> Saturn  |
| <input type="checkbox"/> Mars    | <input type="checkbox"/> Uranus  |
| <input type="checkbox"/> Earth   | <input type="checkbox"/> Mercury |
| <input type="checkbox"/> Venus   | <input type="checkbox"/> Jupiter |

Write the name of each planet on the line below it.

Match each planet to its fact.

- |                                                                                            |                                                                                                               |
|--------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------|
|  Mars    |  It has one moon.          |
|  Mercury |  It shines at night.       |
|  Uranus  |  It spins on its side.     |
|  Earth   |  It is closest to the Sun. |
|  Moon    |  It has two tiny moons.    |

True or False: write T or F in each box.

- ☐ Mars is called the red planet.
- ☐ Venus is the coldest planet.
- ☐ Uranus spins on its side.
- ☐ The Sun is a planet.
